## Acoustical Engineer

Hi! I'm Antonio and I make drones sound less noisy. I love engineering because it allows me to improve people's lives. To do that it is important to listen to what they want and need, **communicate** clearly and **involve people** in deciding what to do. Making less noise is tricky so we need lots of different skills and I enjoy **working in a team** with different engineers.

I make drones  
sound less noisy!
